
kW	HP	Q=Flow rate										
		l/min	0	10	20	30	40	50	60	70	80	90	95
		m³/h	0	0,6	1,2	1,8	2,4	3	3,6	4,2	4,8	5,4	5,7
		H=Head [m]											
0,8	1		60	58,5	56	50	43	36	30	25	20	15	5

Max. working pressure	10 bar - 1 Mpa
Max. flow rate	95 l/min - 5.6 m³/h
Max. head	60 m
Efficiency class	IE5
Sound level	<43 dBA *
Max. current draw	4.6 A
Liquid temperature	5 ÷ 45 C°
Ambient temperature	5 ÷ 50 C°
Pipe connections	GF 1"
Insulation class	IP65

** At optimal operating conditions*

Hydrostation - Pressurisation unit with inverter

Product Catalogue

The future of domestic pressurisation

Hydrostation is EBARA's new pumping unit for domestic water pressurisation.
Designed to revolutionise water management at home, Hydrostation offers exceptional performance in a small space. Thanks to advanced engineering, Hydrostation is equipped with ultimate technology to allow constant pressure while reducing noise and consumption. **The IE5 permanent magnet motor**, the beating heart of Hydrostation, ensures not only power but also energy efficiency.

With compact dimensions, Hydrostation **integrates easily into any environment**, offering fast and intuitive installation without the use of tool. Thanks to self-priming features, Hydrostation is suitable for several installations.

Hydrostation is more than just a pressurisation unit: it is **the answer to modern domestic water management**, with ultimate technology, ease to use and high performance.

SUPER COMPACT

With a **minimum space down to 60%** comparing to similar products on the market, Hydrostation offers outstanding performance while taking up minimal space, allowing you to install it easily anywhere.

LOW NOISE

Thanks to advanced technology, **with only 43 dBA sound level** during operation, thereby ensuring silent and comfortable pressurisation.

USER FRIENDLY

Hydrostation installation **does not require the use of any tool**. Designed based on customer experience allows quick and easy commissioning.

MAX ENERGY EFFICIENCY

Hydrostation is synonymous of energy efficiency. **IE5 motor** reduces the consumption **rising high performance**. Smart energy for your environment.

QUICK-CONNECT FITTING

Hydrostation fittings are designed to allow installation by hand without the use of any tool. Once you take it out of the package, Hydrostation is ready to use. How easy is that?

EASY TO USE AND INTUITIVE

The Hydrostation screen provides simple and immediate parameters settings and controls.
The only thing you have to do is working pressure setting.

CONTROLLED REMOTELY

Thanks to the Bluetooth® connection, you can control your system remotely, conveniently and intuitively via the Hydrostation app. Download it from the App Store or Google Play.

Download on the App Store

HYDROSTATION TWIN

Do you need a greater flow rate? With the manifold kit you can have twice as much. Connect two Hydrostations and double the performance, you can guarantee optimal pressurisation in apartment buildings with up to 10 flats.

Product compliant with DM 174/2004 (drinking water use)
